

Are we nearly there yet?

Arms and legs

Driving around the UK there's one thing you're guaranteed to see on every journey – the great British pub. But this game doesn't mean stopping off. In fact, it gets more fun the further you go.

The people on the driver's side of the car make up one team. And the people on the passenger side, the other. The rest is easy peasy.

Everyone needs to keep an eye out for the pubs on their side of the road. Especially ones whose names contain anything with arms and legs. Points are awarded for every arm or leg each team claims.

Confused?

It's simple. Check out these examples:

- The King George would score 4 (2 arms and 2 legs)
- The Red Lion would score 4 (4 legs)
- The Coach and Horses would score 12 (Two horses and one driver equals 10 legs and 2 arms)
- The team with the highest score at the end of the journey wins. But for an automatic winner – keep a look out for The Beehive!

In a pickle?
