Other rules/requirements in Ukraine:

A person temporarily taking a vehicle in to the Ukraine must pay an ecological tax at the border. The amount varies according to the engine power, approximately €10 per 1000cc.

In addition to the original vehicle registration document it is recommended that an International Certificate for Motor Vehicles ([ICMV](#)) also be carried if visiting any Ukrainian/Russian speaking areas. State Traffic Inspectorate officials will stop vehicles to check documents, especially if they are displaying foreign plates.

We recommend that visitors carry an assortment of spares for their vehicles such as fan belt, replacement bulbs and spark plugs.

It is necessary to pre-plan itineraries and book accommodation before departure.

During cold winters it is highly recommended to use spiked tyres or snow chains.

When a foreign vehicle is involved in an accident it is compulsory to call the police and to obtain an accident document from the traffic police. On leaving Ukraine, this will be required at the border.
