### 1 These terms apply to AA Vehicle Inspection bookings

When these terms apply
1.1 These terms cover your use of the AA Vehicle Inspection website and any AA Vehicle Inspection Services that you book (whether via the AA Vehicle Inspection website or

by phone) or which we otherwise provide (including any additional services which you authorise in relation to a booking).

- 1.2 These terms don't apply to any other product or service (such as AA Breakdown cover).

#### **How we accept your booking**

- 1.3 If you purchase AA Vehicle Inspection Services, this constitutes an offer by you to purchase AA Vehicle Inspection Services under these terms.
- 1.4 Acceptance of your offer occurs when we confirm your booking on the AA Vehicle Inspection Website (or by any other means).

#### **We're not responsible if you purchase goods or services from a third-party**

- 1.5 If you purchase vehicle inspection or services directly from a third-party then we are not responsible for those services (for example, if you book in a vehicle inspection service with a third-party garage, other than through the AA Vehicle Inspection website).

## **2 Bookings can be made for eligible Vehicles**

#### **Bookings can be made for eligible Vehicles**

- 2.1 You can only purchase AA Vehicle Inspection Services for eligible vehicles "**Vehicles**", meaning cars, 4x4s, motorhomes, vans, hybrid vehicles and electric cars.
- 2.2 Whilst we aim to inspect the Vehicle within 2-4 working days of booking, the AA Vehicle Inspection Service is subject to our inspectors' availability.
- 2.3 We try to only show available AA Vehicle Inspection Services on the AA Vehicle Inspection website. If you are unable to get a quote it is likely that we do not inspect that type of vehicle.
- 2.4 In the unlikely event that you've purchased a Vehicle and we determine that we can't perform the purchased Vehicle Inspection, we'll contact you to discuss alternative arrangements.

## **3 Important information about AA Vehicle Inspection Services**

#### **Scope of the AA Vehicle Inspections and additional services**

- 3.1 We'll arrange for the AA Vehicle Inspection Services to be performed by one of our engineers or a third party working on our behalf.
- 3.2 You must ensure that the level of Vehicle Inspection Services you purchase will cover the checks you require.
- 3.3 When the engineer accesses the Vehicle, they will inspect it and perform visual, internal and external checks of the Vehicle only. They will inspect the parts and items identified on our website and/or any email confirmation sent to you.

- 3.4 Inspections do not involve dismantling or disturbing any structure, assembly, component or internal mechanism.
- 3.5 The Inspector will carry out a road test of the Vehicle in accordance with the level of Vehicle Inspection Services you purchased.
- 3.6 There are certain parts of the Vehicle which will not be looked at. Please refer to section 4 for relevant limitations and exclusions.
- 3.7 A Report will be produced upon completion of the Vehicle Inspection Services. The Report will only be valid at the time of the Vehicle Inspection, and we cannot be held responsible for issues that arise after the Report is issued.
- 3.8 A copy of the Report will be sent to the email address provided when purchasing the Vehicle Inspection Services. If you do not receive the Report, please contact us as soon as possible so we can re-send it to you.
- 3.9 Items which are listed on the Vehicle Inspection Checklist as a part or item to be checked but which are not reasonably accessible on the Vehicle, will not be inspected and the Inspector will mark the relevant section of the Report accordingly.
- 3.10 The Vehicle should be reasonably clean and dry to ensure that the Inspector can clearly see and accurately report on the relevant Vehicle parts inspected. Where the Vehicle is not clean and dry, the Inspector may not be able to comment on those parts and will mark the Report Checklist accordingly.
- 3.11 The AA Vehicle Inspection Services can only be carried out on the Great Britain mainland. We do not carry out inspections in Northern Ireland, some parts of Scotland and Wales, or any of the islands.

#### **Providing information**

- 3.12 If you don't provide information that we ask for within a reasonable time we may be unable to proceed with the inspection. In such case, we will aim to re-book the inspection.

## **4 Out-of-scope services and other limitations**

### **Out-of-Scope services**

- 4.1 We are committed to performing the AA Vehicle Inspection Services detailed in your booking with reasonable care and skill. The inspection is, however, limited to a visual internal and external examination of the Vehicle and may not identify all faults or defects with it.
- 4.2 We do not check the following as part of any of the AA Vehicle Inspection Services:
  - (a) Parts which require dismantling, removing, disconnecting or taking apart for inspection purposes;
  - (b) Non-standard accessories, as a result of personal modifications or otherwise;
  - (c) Vehicle data checks, unless stated otherwise;
  - (d) Oil and fuel consumption;
  - (e) Source of oil leaks;
  - (f) Brake lining material (other than what is immediately visible);

- (g) Brake fluid for contamination, unless an Advanced Inspection is being carried out;
- (h) Operation of in-car entertainment systems including cassette, compact-disc players, TV/DVD/satellite navigation systems, Bluetooth or other in-car entertainment. For the Comprehensive and Advanced Inspection, these will be turned on and off only;
- (i) Sound or radio reception and alarm systems. Only available for the Comprehensive and Advanced Inspection. Items will be turned on and off only;
- (j) Cylinder compression, vehicle electrics and electronics which would require specific diagnostic equipment;
- (k) Exhaust emissions and/or catalytic converters. Our Inspection can only confirm the external condition, gas tightness and security. The Inspection does not include checking the internal condition or effectiveness, as this requires specialist exhaust emission testing, which is not included in the Inspection;
- (l) The accuracy of in-car computer systems (for example, but in no way restricted to, computers used for route finding, fuel efficiency or otherwise);
- (m) Air conditioning functions and efficiency. Only available for the Comprehensive and Advanced Inspections. Items will be turned on and off only;
- (n) The habitation area of Motorhomes - The electrical systems and appliances, water fittings and appliances, and the gas fitting and appliances are not checked. We strongly advise these to be tested and checked by a suitably qualified person prior to Vehicle purchase;
- (o) Vehicle Technical Systems:
  - (i) Many vehicles are fitted or equipped with automatic or computerised operating systems, which may be controlled by microprocessors. These include engine-management systems, fuel systems, ignition systems, air-conditioning systems, lambda-controlled systems, stereo radio, cassettes, amplifiers, compact discs (single and multi), TV/DVD, satellite navigation, active and self-levelling suspensions, gearboxes, turbo-chargers and superchargers, anti-lock braking systems, four-wheel drive and electronic lockable differential units, traction control, alarm and immobiliser systems, catalytic exhaust systems, and variable camshaft timing systems.
  - (ii) It is not possible to check fully the detailed operation of these systems due to the many variations in features and operating modes, and it is not possible to confirm that these systems are functioning fully to the manufacturers design specifications. As a result, the scope of the Inspector in relation to these systems is limited to giving an overall view and opinion on the performances generally inspected or checked.

#### **Limitations in the AA Vehicle Inspection Services**

4.3 We cannot advise of defects that we cannot see upon a visual internal or external examination of the Vehicle. Vehicles (particularly older ones, that have a high mileage, and/or that have been subjected to abnormal use) may have latent defects; serious internal, structural or mechanical defects; and/or hidden corrosion. These issues may not always be detectable from an external, visual examination.

4.4 The Vehicle Inspection Services cannot:

- (a) confirm whether the passenger or luggage compartments (including the body or caravan area of any Motorhome) are watertight;
- (b) predict the life expectancy of exhaust systems, clutches or dual-mass flywheels;

- (c) provide any indication of any faults which might have become apparent had the Vehicle been driven in excess of the speed reached or the distance travelled during any road test carried out by the Inspector;
- (d) confirm that all or any of the components of the Vehicle are original, or replacement components that have been manufactured by the manufacturer of the Vehicle;
- (e) confirm whether the Vehicle would pass an MOT test. If the vehicle's MOT has less than 3 months' left, we strongly recommend that an MOT test be carried out prior to the purchase;
- (f) include the inspection of any parts, components or areas of the Vehicle that are not reasonably visible or accessible to the Inspector at the time of the Inspection;
- (g) confirm authenticity of the Vehicle's V5 Registration Document, the mileage, the MOT certificate, the Excise Licence, the Vehicle Identification Number (VIN), the Engine Number, the Registered Number or the Vehicle service history; or
- (h) check for any recall notices. We recommend that you check with the Vehicle manufacturer that the Vehicle has not been subject to such notices.

#### Older cars and high mileage

- 4.5 If there is no documentary evidence of a recent engine timing belt (cam belt) replacement, we recommend that the belt of the Vehicle is checked or replaced prior to purchase.
- 4.6 If the Vehicle does not have a recent service history or it was not available to the Inspector at the time of the Inspection, we recommend that a service in accordance with the Vehicle manufacturer's specifications be undertaken prior to purchase.

## 5 We'll let you know what fees are payable in advance

#### What are Fees?

- 5.1 The "**Fees**" are the amounts you agree to pay for the AA Vehicle Inspection Services under these terms and include VAT and are calculated in pounds sterling (£) (GBP).
- 5.2 AA Vehicle Inspection Services provided under these terms are **not** included in or as part of any other product (such as an AA Breakdown Membership).

#### Fees are paid up front

- 5.3 When you purchase the AA Vehicle Inspection Services, we'll show you the Fees specified in your purchase. You'll pay the fees shown on the AA Vehicle Inspection website.
- 5.4 We'll perform the level of AA Vehicle Inspection Services purchased. **Error! Reference source not found.**
- 5.5 We require you to pay for the AA Vehicle Inspection before we confirm the time and date for the inspection to be carried out.

#### Payment method

- 5.6 We accept payment with the payment methods specified on the AA Vehicle Inspection website. We cannot accept other forms of payment.
- 5.7 You agree that the payment card you provide is yours or that you have been specifically authorised to use it to purchase the booked AA Vehicle Inspection Services.
- 5.8 Payments will be subject to the terms and conditions of our third-party payment platform as may be notified to you from time to time.

#### **Changes to fees and what happens if we get the price wrong**

- 5.9 We may update and change the Fees from time to time and without notice, but these changes will not affect the AA Vehicle Inspection Service already purchased.
- 5.10 If we have made a pricing error when your purchase the AA Vehicle Inspection Service, we may end this Agreement and refund you any pre-paid sums.

## **6 Accessing and Inspecting the Vehicle**

### **Accessing the Vehicle**

- 6.1 You will need to obtain all necessary permissions from the Vehicle's owner and any occupier of the premises where the Vehicle is located before our Inspector arrives.
- 6.2 Our Inspectors need enough room to safely park near the Vehicle and to safely walk round it to provide the AA Vehicle Inspection Services.
- 6.3 Our Inspectors can only provide AA Vehicle Inspection Services in daylight or in a well-lit location.
- 6.4 If our Inspector determines that it is unsafe to work on the Vehicle in its location, the AA Vehicle Inspection Services will not be provided and your booking may need to be re-arranged.
- 6.5 You must ask the owner of the Vehicle to remove any personal belongings from the Vehicle before the Inspection takes place as we cannot be held responsible for any personal belongings left in the Vehicle.
- 6.6 If the vehicle is in a garage, the vehicle should be parked within designated areas and you are expected to follow all garage safety instructions.

### **Car location and road testing**

- 6.7 Our engineers can only provide AA Vehicle Inspection Services if the vehicle is on private land.
- 6.8 An AA Vehicle Inspection is not able to be carried out on any public road (including street parking and other public spaces).
- 6.9 In order to provide the AA Vehicle Inspection Services, our engineers will carry out a road test on the Vehicle. To do so, the Vehicle must contain sufficient water; oil; fuel or vehicle charge.

6.10 The carrying out of a road test does not mean that our Inspector has seen a valid MOT certificate (unless the Vehicle is under 3 years old). The MOT certificate must be presented to the Inspector at the time of Inspection.
