TERMS & CONDITIONS OF SIGN PURCHASE

AA signs are issued subject to the following conditions: 1. That all signs and fittings are supplied on the basis of a "once-only" rental fee and, therefore, remain the property of AA Media Limited. 2. That the sign(s) displayed will be maintained in good order and that it is the responsibility of the applicant to insure against damage, howsoever caused, and pay the AA the cost, including delivery, of repairing/replacing the sign(s). Further, the applicant must ensure that any electrical installation shall be made using the correct materials and by a qualified electrician. 3a. The applicant shall, in the event of withdrawal from the AA Recognition Scheme, at his/her own expense, remove the sign(s) from their display. This is to be within 28 days of the termination of the recognition. 3b. That in the event that such notification is not received within 28 days, then the applicant shall allow the employees, agents or named representatives access to the premises in order to effect the removal of all AA property. 4. It is the responsibility of the applicant to ensure that all local planning authority regulations are complied with and that all necessary permissions have been sought and obtained regarding the display of AA Hotel Services signs.

IMPORTANT INFORMATION

All prices are inclusive of VAT, packaging and delivery. Only signs applicable to the classification for the establishment will be supplied. Several local planning authorities request that all signs are non-illuminated. In these cases, the electrical cable for connection need not be supplied.

It is your responsibility to refer to the regulations of your local planning authority. All signs (with the exception of plaques) are manufactured in aluminium with a metal black plate and fixing bracket. Pole/post fittings can be provided; prices on application, dependent upon specific requirements. It is the responsibility of the establishment to ensure the sign is examined prior to accepting delivery.

Every attempt has been made in the design and manufacture of the signs to use readily available components (such as lighting tubes, chokes and starters). The AA reserves the right to alter the specifications of all signs.
